HR Director Weber provided an updated on the Emergency Manager and Risk Manager/Veterans Service Officer positions review. Weber stated that Risk Manager/VSO Samuelson functions only as Emergency Manager Jappe's backup. Weber recommended the Board to review if it is time to separate the Risk Manager duties from the VSO due to increased employees and county buildings. Jappe requested to model the Emergency Management department after Williams County. Weber formally recommended to officially separate Jappe and Samuelson, to sever Samuelson from the Emergency Manager backup role, to perform a PDQ review of Samuelson's role and duties, and to add an Emergency Management Specialist to improve the function of the Emergency Management Department. Discussion was held by the Board regarding where Risk Management would fall moving forward, evaluation of efficiencies for additional staff, and that changes in job duties can lead to lower salaries. Questions were asked about the job duties of the Emergency Manager and Weber stated he will ask Jappe to speak with the Board regarding her duties. The Board consensus was for Weber to continue to study the roles of the Emergency Manager, Risk Manager, and Veterans Service Officer and the requirements of each position before making a final decision.

A public hearing on Abatement Applications 4201 and 4210 was held at 10:00 a.m. No members of the public were present for the hearing. Moved by Skarda, seconded by Lawlar, to approve Abatement Applications 4201 and 4210 as presented. All voting aye, motion carried.

Skarda requested the language to be changed on extending the amount of the contract from the County's Director's Approval to the County Commission's approval. ROW Agent Vandervorste stated he is continuing to create policies and procedures to make the process more efficient. Lawlar requested the language regarding number of visits to landowners be removed to allow for more flexibility. Moved by Veeder, seconded by Nordby, to approve the Task Order for Right of Way Services in the amount of \$150,000 with language changes on the number of landowner visits and County Commission approval for limit extensions. All voting aye, motion carried.

Skarda recommended the addition of a second applicant contact information section and Nordby recommended adding the County logo and phone number to the form. Board consensus was to approve the form with the recommended changes.

ROW Agenda Vandervorst updated the Board on the right of way acquisition process on County Route 34. Vandervorst stated he has a signed memorandum of understanding will all property owners and that they have moved forward with a set of preliminary plats for the project. There is one landowner who has not yet signed the right of way documents with the County which has held up the project. Nordby asked the landowners along the project in attendance if they were in favor of moving forward with the project and all present stated they were in support of moving forward. Michael Jones, landowner, stated, on behalf of the local community near the project, that the community is in support of getting the project completed and stated the County should not allow one person to hold up the project. Veeder thanked those present for attending the meeting and for their input. The Board consensus was to move forward with the project.

Moved by Veeder, seconded by Skarda, to approve the advertisement of bids for the 2020 dust control season. All voting aye, motion carried.

Moved by Nordby, seconded by Veeder, to approve the advertisement of gravel stockpiles for 2020. Kanwar and Glover stated all locations had current contracts other than possibly the Lassey pit. All voting aye, motion carried.

Nate Law and Kurt Brew, Boulder Products and Services, presented information on a dust control solution that was not salt based, but a bio-preferred product, ElimiDust. Currently the product does not meet the bid specifications set forth in the County bid. Law stated the product is being used on lease roads in McKenzie County.

The Board asked about product longevity, safety, reactivation, and use on scoria. Moved by Lawlar, seconded by Veeder, to authorize Boulder Products and Services to test their product, ElimiDust, on road sections with mileage to be determined by the Road & Bridge Department. All voting aye, motion carried.

A public hearing on Abatement Applications 4103-4189 began at 11:15 a.m. Tax Director Paulson suggested the attorney from Fredrickson and Byron, David Tibbals, representing the applicant, speak first followed by the Watford City and County Tax Directors. Tibbals began with Abatement Application 4103 for the Auburn Ridge property. Tibbals stated the County has the final decision to determine the true and full value of a property and that the law allows all property owners the right to object to values set. Tibbals presented information on the income approach for determining property value as well as a third-party appraisal. The Board asked questions on comparable properties in McKenzie County and other communities. Tax Director Paulson stated that the income approach can be complicated when a building has not been completed, as the intent for the income approach is to be used after the property has been completed and in operation for a period of one year. Paulson stated additional value needs to be added for the portion of the buildings that was not completed. Tax Assessor Olson, City of Watford City, stated the property values are based on many factors, including sales or property in every class of property every year. Olson presented information on Auburn Ridge using the income approach and deductions for vacancies and expenses, which came out greater than the property value set for this property in 2017. Lawlar asked is this calculation followed the standard procedure used by Olson and Olson stated it did. Paulson presented information on a hybrid valuation approach, which is an additional way to check that values are equalized and fair to all properties being assessed. Tibbals countered that the third-party appraisal leads to a logical conclusion that the apartments were all over-assessed in their values. City of Watford City Attorney Voll asked the Board to remember that the appraisal was prepared for banks, which can sometimes look for a more conservative value. Voll stated the City of Watford City found the methodology used by Olson as the preferable method for property value determination. Tibbals disagreed that banks seek conservative appraisal numbers and stated the appraisal was not influenced by the property owner. Moved by Nordby, seconded by Veeder, to deny Abatement Application 4103 as the property was equalized with other like facilities. All voting aye, motion carried.

At 12:20 p.m. the public hearing on Abatement Applications 4104-4189, Bison Run, began with Tibbals. Tibbals stated an income approach was provided for this property that was driven by average market rent from December 2016 and rent was trending downward as units were opening. Olson stated that grouping all of the property together doesn't include the value of the vacant land that is also in the parcel group. Olson stated this property had been platted, resulting in individual lots of single-family homes/units which fallow the sales ratios for other single-family homes. Tibbals argued that the property is operating as one rental/apartment complex and so the income based approach as an apartment complex is appropriate in this case. Olson

stated there is nothing that prevents the sale of any unit and that three had been sold from this complex already. Voll stated when you take the entire property using the income approach there are still 15.4 acres that have some level of infrastructure and 26 acres of vacant land that are not accounted for, all of which has value and is easily improvable within the city limits. Tibbals stated he understands equalization is a concern but that these parcels were operated as one parcel of apartments even though the owner platted them as separate parcels on their own accord. Lawlar stated the tax assessor has been consistent with the process they have been using regardless of the name on the application and use methods to verify the values set are appropriate. Olson stated the abatement applications approved by the City of Watford City (applications 4105, 4127, 4146, and 4189) were green spaces in the property or not buildable and that the City approved those with the value provided by the applicant. Moved by Nordby, seconded by Skarda, to approve Abatement Application 4105 with a true and full value of \$356,000. All voting aye, motion carried. Moved by Nordby, seconded by Lawlar, to deny abatement application 4104 as the value set for 2017 was less than the market value of the property. All voting aye, motion carried. Moved by Skarda, seconded by Veeder, to approve Abatement Applications 4127, 4146, and 4189 as presented. All voting aye, motion carried. Moved by Veeder, seconded by Lawlar, to deny Abatement Applications 4106-4126, 4128-4145, and 4147-4188 based on a county market analysis and rent review. All voting aye, motion carried.

All voting aye, motion carried.

HR Director Weber presented information on an extended salary scale, taking the current scale and expanding it from 21 steps to 40 steps. Nordby requested that

Weber leave the current scale as it is and to add additional steps at the 0.25% increase per step and to go into effect the next budget year. Weber will prepare a new scale and bring it back to the board at a future meeting for discussion on implementation in the 2021 budget year.

Moved by Veeder, seconded by Lawlar, to reconsider Abatement Application 4208. All voting aye, motion carried.

Weber requested, on behalf of Public Works, to hire a Fleet Parts Technician instead of a Diesel Mechanic. Weber stated this position would be solely in the parts room keeping inventory and the like and would allow the Shop Foreman to be on the floor overseeing the work being done. Weber stated there may be a need in the future for a Mechanic, so this wouldn't necessarily remove that request in the future. Lawlar asked what the Fleet Manager does for job duties. Kanwar stated the Fleet Manager is not in the shop and parts room every day but is looking at software maintenance, records, registrations, and trying to get caught up. Moved by Nordby, seconded by Veeder, to approve the hiring of a Fleet Parts Technician as a B23 instead of a Diesel Mechanic at a B25. Weber also requested the Handbook Committee to add more guidance on the policy for internal candidate transfers. Nordby stated the Board and Compensation Committee worked very hard to make similar type jobs all fall within the same bank and pay scale and stated concerns about constant moving in departments within the same job band with pay increases. Nordby stated this would

move the County back to when there were no job descriptions or a pay scale and that if an employee was moving within the same band they should not receive a pay increase. Weber stated if this were an external candidate they would be hired as a B21 Step 5 and if this employee quit they could be rehired as a B21 Step 3. Lawlar agreed with Nordby that this would throw out much of the work that has been done by the Compensation Committee over the years. Nordby stated approving an increase in steps within the same band will only cause discord within the departments. Skarda stated the Board did not approve the position of a Planning & Zoning Technician, but approved a Code Enforcer/Planner/Building Inspector and that she is not in support of this position. Moved by Lawlar, seconded by Skarda, to deny the Planning & Zoning Technician position as presented. All voting aye, motion carried.

Questions were asked regarding the ease of payroll for this scenario as well as the cost for the expanded leave. Weber stated that the cost depends on the reason the employee is out and is either capped at \$200/day or \$511/day. Auditor/Treasurer Johnsrud stated intermittent leave would allow employees to extended the leave to more than 12 weeks. Weber stated, yes, it is 480 hours over that time period and that he was unsure how many employees may be using this expanded FMLA. McCabe suggested seeking input from the department heads before making a final decision. Weber stated no decision was needed today and that until a formal decision had been made that intermittent leave would not be an option. Board

consensus was to make the final decision on April 7. The second question was if employees could use the expanded FMLA intermittently while working at their usual worksite. The Board consensus was to treat this the same as the first question and get feedback from department heads before making a final decision and that no intermittent leave was allowed at this point in time. The third question was if the County would allow employees to use existing paid leave to supplement the amount they receive from the emergency paid sick leave or expanded sick leave. Nordby stated at this time it should just be the amount allowed and to not supplement so that employees will still have their bank of leave to use for later use. The rest of the Board agreed that existing paid leave banks could not be used to supplement expanded or emergency sick leave. The final question was if employees could request donated time to put towards expanded FMLA paid leave. The Board consensus was that donated time could not be put towards this new FMLA paid leave and employees need to save their sick time in case they need it personally.

Discussion was held on additional guidance to department heads regarding employees. Johnsrud stated no decision is needed today but is more to prompt discussion of how the Board wants to handle incidents. Weber asked if employees can use sick or vacation leave for any reason now to make sure they are covered in the case they are out for an extended period of time. Board consensus is not to change the categories at this point in time. Weber asked if department heads are allowed to send home employees exhibiting symptoms and if we will allow those employees to use the emergency sick leave. Veeder stated the answer was yes to both of those questions. Board consensus was the supervisor should have the ability to send the employee home if they are sick. Weber asked what sort of documentation employees needed to provide to prove they meet the qualification for the new leave. SA Skarda cautioned about requiring test results and to not violate HIPAA laws. Veeder stated the County does not want to add to the health system stress by sending people to get tested and asked if there were repercussions for employees not being truthful with information on the form. Weber stated he would add a statement to the policy that if an employee is misusing the policy and not being truthful they could be subject to disciplinary action. Board consensus was to add that statement into the policy. Board consensus was for employees to remain home until a diagnosis is received if someone in their household was exhibiting symptoms but the employee was not.

The Board discussed what would happen if an employee tests positive and the consensus was that those in close contact with that employee would be quarantined as recommended by the ND Department of Health. Nordby and Veeder both stated that contract tracing would be done. Nordby stated employees should not be going into other places if not necessary and should stay at their desk and refrain from contact with other employees and should not be roaming around in different departments. Weber asked if the entire department could work remotely. Skarda stated this was not the right approach either and that she was also not in favor of 4 10-hour days. Nordby said the only change to reporting to work would be if the Governor ordered a shelter in place but until that time the current recommendations are to separate by at least 6 feet between

people, sanitize countertops, and wash hands. Lawlar stated there are ways to get equipment to employees to work remotely should they be quarantined and those can be dealt with when they occur. Veeder asked Johnsrud to send out an email asking office staff to be more diligent in cleaning their personal workspaces and to take personal responsibility to follow established guidelines. Veeder expects department heads to come up with scenarios where it won't work for people to report to work and bring those to the Board. Board consensus was that employees need to report to work and if the department head feels employees need to work remotely that it come before the Board for discussion and final decision.

The meeting adjourned at 3:57 p.m. until April 7, 2020, at 9:00 a.m.

JDA Chairman Brown and Economic Development Coordinator Stenberg requested \$1M in additional funding for the housing program. Brown stated the JDA has taken into account the shift in the oil industry and has concluded that McKenzie County remains a high growing community with a lack of housing. The additional \$1M will be distributed through the Housing Development Subsidy program. Brown stated that two applicants, Stenehjem Development and Stepping Stone, were awarded the previous allocations and includes 43 shared-wall construction and 69 single-family homes. Discussion was held on the status of remaining funds should the application process not include the full 20 homes and the answer was the funds would remain with the County. Moved by Nordby, seconded by Skarda, to approve the additional \$1M for the JDA Shovel-Ready program. All voting aye, motion carried.

Arnegard Fire Department Assistant Chief Drake Collison requested funding from the County to replace their 1990 GMC engine in the amount of \$300,000. Collison stated the Arnegard Fire Department has pledged \$50,000 and the Arnegard Township has pledged \$50,000. The Fire District is currently at the maximum allowed mill levy (5.0 mills). Lawlar requested additional information and an itemized list as there might

be other less expensive options. Collison stated the District is working to be as fiscally responsible as possible during this time and that is has been challenging to locate a unit due to the high demand. The Board consensus was to table the item until additional itemization was available for review and stated the support the Arnegard Fire District and their needs.

Questions were asked regarding participation with the local hospital, UMDHU, and more remote communities. Doble stated the hospital staff and UMDHU employees were fully integrated into the EOC structure.

Luke Taylor, Watford City Airport, updated the Board on the recent opened bids for the airport expansion. Bids came in under engineer's estimates for the project and Taylor requested support of \$4M for the project. Discussion was held on the possibility of additional state funding and Taylor stated this depended on the Dickinson project which will be released in May. Moved by Skarda, seconded by Lawlar, to approve funding of up to \$4M for the WC Airport Expansion Project through a Joint Powers Agreement. Taylor stated the airport will work to lower the requested funding if other funds are made available for the project. All voting aye, motion carried.

HR Director Weber presented information on the Planning & Zoning new FTE. Weber stated his understanding was that the position was not intended to stand alone and that no formal job description was presented for the position. Weber worked with Kanwar and Huus to prepare a job description for a P&Z Building & Code Technician and requested approval to move forward with hiring Cindy Mecham for the position. Nordby asked where the position fits in with other departments that have front desk personnel pick up additional duties in the office. Skarda asked Weber if interviews had been conducted for a replacement administrative assistant position prior to the approval of the new position. Weber stated yes interviews had been conducted as he didn't realize there was confusion over the new position. Skarda expressed concern over the intent to hire Mecham for the position due to a lack of qualifications and training. Huus stated Mecham had been doing on the job training and has experience with the codes and has attended building inspector trainings. Veeder stated the qualifications of the intended applicant are a separate issue and the question here is if the position is available to be filled at this time. Moved by Veeder, seconded by Nordby, to approve the Planning & Zoning Building & Code Technician position as presented. Roll call vote: Skarda, nay; Nordby, aye; McCabe, aye; Lawlar, nay; Veeder, aye. With 3 votes aye and 2 votes nay, motion carried.

Weber discussed intermittent leave with the Board due to the COVID-19 pandemic. Weber stated several departments wished to be able to determine on a case

by case basis the needs of their department. Skarda wants to ensure the Board is made aware of any decisions made, as they were not notified of the shift to 4-10 hour days at Public Works. Nordby stated it is just for the coronavirus time period for the 4-10 hour days. Lawlar requested to remain consistent across all departments. Nordby asked Johnsrud the implications to payroll. Johnsrud stated it would be difficult to administer either way and suggested intermittent leave in no less than half day increments as a compromise with departments and reminded the Board they can change this in the future should they desire to do so. Moved by Nordby, seconded by Lawlar, to approve intermittent leave in half-day blocks based on the normal work week of the employee thorough the federal guidelines for coronavirus. Weber asked if department heads could email the Board for updates. Board consensus was to wait for the next Board meeting for reports. Lawlar requested it be included on all documentation that this is an exception only for the coronavirus time. Veeder also employees and department heads to remember and understand this is a temporary time and all involved may need to be fluid as time progresses. All voting aye, motion carried.

Weber presented information on Gallagher review of the Permitting Specialist positions in Road & Bridge. Weber stated two employees, Cindy Glover and Dawn Tschetter, share the same duties as Tim Pickering and consider themselves to be fulfilling the same position. Gallagher reviewed the combined PDQ and recommended a B25 for the position. Skarda asked for clarification on the timeframe of when to approve these classifications and if they should wait until budget time. Nordby stated originally these were discussed to do one to two times per year and ideally they should occur within the normal budget year. Veeder agreed and stated it he doesn't feel it is working well to do them throughout the year. Nordby requested all new employee requests should also be implemented during budget time and not mid-year and perhaps no new positions in 2021 due to the current economic climate. Board consensus was for these new requests to be done at budget time each year for the upcoming year so they can be vetted through the budget process. Veeder commented that currently the economy is in flux and he would like for any major financial decisions to be delayed as the County needs to be cautious at the present time. Veeder also thanked Weber for doing what the Board asked him to do with these types of requests.

Veeder and City Administrator Moen updated the Board on the new daycare center project. Veeder stated the group met recently to evaluate current positions and stated no solution has been found on how to make the current daycare center operate without public support and he recommended placing the new facility project on hold. Moen stated the new project is approximately 70-80 percent complete with design. Moved by Veeder, seconded by Skarda, to continue with the planning process of the new daycare but to hold off on building at this time. All voting aye, motion carried.

MCWRD Manager Shaffer requested to purchase a new vehicle for his department and transfer the existing pickup to Engineering. Shaffer stated he doesn't have a delivery date at this time on the vehicle, which is coming through the local dealer. Moved by Veeder, seconded by Nordby, to approve the purchase of a new

pickup for \$35,529.00 and approve the transfer of the existing vehicle to Engineering as presented. All voting aye, motion carried.

Jappe requested to make Upper Missouri District Health Unit a larger part of the coronavirus EOC. Javayne Oyloe and Daphne Clark, UMDHU, were present via teleconference for the discussion. Jappe requested the current EOC to move to virtual setup to reduce the number of people coming in and out of the EOC. Discussion was held on the possibility of virtual platforms and the current EOC operations. Johnsrud explained the standard operating procedures of any one who enters the EOC, which include proper social spacing, sanitization, and wellness questions/temperature checks. Oyloe stated UMDHU is interested in being more involved in day to day operations. Nordby suggested to leave the option to those people working in the EOC and to follow the recommendations of the Governor. Johnsrud will work with Armor Interactive on virtual platform options. Board consensus was to continue to evaluate and address if needed in the future.

Skarda requested additional information from Oyloe regarding the UMDHU budget and current operations. Oyloe stated they will be meeting to discuss the budget and working for FEMA reimbursement, as well as options in the short term if additional funding is needed. Oyloe stated she will keep the county updated on funding needs. Veeder asked for Oyloe to gather information and that he support additional emergency funding.

All voting aye, motion carried.

Discussion was held on the pickup purchase from Kupper Chevrolet which was approved in January 2020 with a trade vehicle, but completed without the trade. Kanwar stated this pickup is needed for inspectors during construction projects. Skarda and Lawlar expressed concern that the Board's motion was not followed. Kanwar stated he didn't want to lose the opportunity to keep the vehicle and agreed he should have been upfront with the Board. Kanwar requested to keep the vehicle that was slated to be traded in to Kupper, as well as the one for Sax Motors that was also approved in January. Moved by Nordby, seconded by Veeder, to reconsider the previous motion from January 2020 and to allow the retention of two pickups that were previously slated for trade in to Kupper Chevrolet and Sax Motors. All voting aye, motion carried. The Board cautioned Kanwar to be more transparent going forward.

Skarda stated she had received calls from citizens asking why certain county roads are not being maintained. Kanwar requested to have those persons contact him directly for review.

Discussion was held on the purchase of property for the new fairgrounds. State's Attorney Skarda requested clarification on ownership of the property for the purchase

Sheriff Johansen requested authorization to purchase a Tahoe from Kupper Chevrolet in Bismarck as the ordered vehicles from Ford are pending due to the COVID-19 pandemic. Johansen stated he would need a budget amendment for the purchase as he had \$15,000 in his budget that could be used towards this, but would need an additional \$22,500. Moved by Lawlar, seconded by Skarda, to approve the budget amendment in the amount of \$22,500 for the purchase of a Tahoe from Kupper Chevrolet in Bismarck. Nordby requested use of the local dealer in town as much as possible to support local businesses. All voting aye, motion carried.

Schmidt stated they would use both courtrooms and practice appropriate social distancing. SA Skarda stated a Sheriff's Deputy would be present to control persons waiting for court and keep them restricted to the 2<sup>nd</sup> floor. Sheriff Johansen requested credit card limit increases to include a minimum standard of \$1,000 and one card per department of up to \$5,000. The Board questioned the need for increased limits that couldn't be accommodated with a temporary increase request. Johansen stated it would be for training and hotel bills when direct billing was not an option. Skarda stated the temporary increase allows for transparency and assurance guidelines are being followed. Nordby stated one issue with credit card payments is the funds are expended prior to the Board's ability to review. The Board consensus was to leave the policy as it currently stands and to coordinate additional needs with the Auditor/Treasurer's Office.

The Board asked the Fair Board to develop a plan of needs and options, to include phasing of the project, and stated the intention was to finance the project with cash on hand. Discussion was held on road use/maintenance agreements during rain events. Pickering and Kanwar requested guidance on creation of a template to offer to companies wishing for exceptions to the policy. Nordby gave historical information on the attempt to do a similar process in 2013/2014 which did not have good results and required additional work from the County to repair damaged roads. Lawlar expressed concerns about ruined roads. Skarda requested to first use the drone project already approved and weather stations before this type of agreement is considered. The Board is committed to keeping roads open as much as possible and requested Kanwar to

provide information on the number of hours roads were closed in 2019. Board consensus was to table this request at this time.

Nordby questioned if there would be additional subdivisions that would request this if the County provided it in this case. # OFFICIAL PROCEEDINGS OF THE BOARD OF COUNTY COMMISSIONERS MCKENZIE COUNTY, NORTH DAKOTA

### May 5, 2020

The Board of Commissioners of McKenzie County, North Dakota met at the Commissioners Room at the McKenzie County Courthouse in Watford City, North Dakota on May 5, 2020. Present: Commissioners Tom McCabe, Howdy Lawlar, Kathy Skarda, Doug Nordby, and Gene Veeder, Auditor/Treasurer Johnsrud, and State's Attorney Skarda. Chairman McCabe called the meeting to order at 9:00 a.m.

Moved by Skarda, seconded by Nordby, to approve the April 2020 Minutes as presented. All voting aye, motion carried.

Moved by Skarda, seconded by Veeder, to approve the bills as presented. All voting aye, motion carried.

MVB Manager Stueber requested authorization to add glass partitions to the public facing offices in MVB/Passport Office. Moved by Lawlar, seconded by Veeder, to approve the purchase of glass partitions with one opening to include a budget amendment to the Buildings & Grounds budget. All voting aye, motion carried.

Economic Development Coordinator Stenberg and Terry Moe requested release of the \$475,000 budgeted for the Skills Initiative. Moe reported on the programming and user agreements with the Rough Rider Center for this Initiative. Moved by Veeder, seconded by Skarda, to approve the fund transfer to the Skills Initiative in the amount of \$475,000. All voting aye, motion carried.

Kylee Roff, Rough Rider Center, requested the waiving of the landfill fees for the 2020 Pick Up The Patch event from May 18 to May 25. No large public gatherings will be done this year and current CDC guidelines would be followed. Supplies of gloves, bags, and vests are available from Roff and any county residents can stop in and pick up supplies to participate. Moved by Lawlar, seconded by Skarda, to waive the landfill fees for the 2020 Pick Up The Patch from May 18 to May 25. All voting aye, motion carried.

WCPD Chief Doble presented the EOC Update and stated we are currently in the recovery phase. EOC is beginning to scale back operations and will continue to do so as needed.

At 10:00 a.m. a public hearing was held on abatement applications. No members of the public were present. Moved by Veeder, seconded by Nordby, to approve Abatement Applications 4235 and 4236 as presented. All voting aye, motion carried.

Facilities Administrator Buck discussed the purchase of camera surveillance systems for the Road & Bridge shops in Cartwright and Alexander. The Board was in support of the cameras but wanted to see additional proposals to see if other less expensive options were available.

Moved by Lawlar, seconded by Nordby, to approve the elevator service contracts for the Courthouse and Public Works Buildings. All voting aye, motion carried.

Discussion was held on an elevator heater for the Public Works Shop Building as a draft is causing problems heating the reception area. Shaffer recommended to research the topic further before purchasing a heater and to look at ways to block air around the elevator shaft. Shaffer stated there were contingency funds available for this purchase if needed.

Watford City Finance Director Dokken requested funding from the County to fill a gap created by the downturn in the City's GPT revenue to be used for road projects. This would allow current cash on hand currently dedicated to these road projects to be used for operating expenses and debt payment. Dokken requested the County to fund the 2019 and 2020 ETA road projects, as well as the 14<sup>th</sup> Ave SE project. Board consensus was to table the topic to the next meeting to allow additional information to be obtained regarding the County's financial position for 2020 and 2021.

Arnegard Fire Department Chief Schreiber discussed with the Board the previous request for funding for a new fire engine. The request to the County is \$275,000. Moved by Nordby, seconded by Veeder, to approve granting \$275,000 to the Arnegard Fire District through a Joint Powers Agreement. All voting aye, motion carried.

HR Director Weber discussed the retirement of Veterans Service Officer/Risk Manager Samuelson tentatively planned for September 2020. Weber asked for direction on hiring a replacement. Nordby stated he would like to see a new job evaluation and classification for just the Veterans Service Officer and to separate out the Risk Management duties to the HR Department. Board consensus was to separate the VSO position from the Risk Management position, submit the position to Gallagher for review, and then post the job. Veeder also requested to see the numbers of veterans being assisted by and living in McKenzie County.

Weber requested to change the FLSA classification of the County Surveyor position from exempt to non-exempt. Discussion was held on the need for this position as those duties are currently contracted out. Kanwar stated this would be a savings to the County to have an in-house surveyor. Lawlar asked about potential liability issues switching to an in-house surveyor rather than a contracted company and didn't feel the savings would be worth the additional liability risk. Veeder stated the broader question was whether or not, at this time, the County was going to take on any additional new employees. Board consensus was to not move forward with filling this position at this

time. Moved by Veeder, seconded by Skarda, to change the FLSA classification of the County Surveyor from exempt to non-exempt. Skarda clarified the position is currently not being filled/recruited. All voting aye, motion carried.

Discussion was held on MCSO Grant shifts and a request was made by Weber to pay these out at overtime rates regardless, even if the employee did not work enough required hours to otherwise qualify for overtime pay. Discussion was also held on allowing Lieutenants and higher in the Sheriff's Office (Lieutenant, Chief Deputy, and Sheriff) to receive additional pay for working grant shifts. Information from other counties was provided by Shaffer, who also reported that the Sheriff's Office has difficulty promoting employees into the command structure due to lack of overtime pay for those positions. Nordby stated he felt the grant shifts should remain at the deputy level and other commissioners agreed. Moved by Nordby, seconded by Skarda, to approve back pay requests as presented for three deputies. All voting aye, motion carried. Moved by Nordby, seconded by Lawlar, to authorize payment of overtime wages for grant shifts worked based on the grant application language even if employees do not meet the required hours worked to qualify for overtime rates. All voting aye, motion carried.

The letter from WCPD Chief Doble to the Board was discussed. Board consensus was for Chairman McCabe and Weber to discuss the letter with EM Jappe and bring information back to the next meeting.

Shaffer presented information on possible 2021 COLA rates. Board consensus was to discuss this during budget discussions later in the meeting.

MCSO Lt. Newman requested a budget amendment to purchase SIRN2020 radios in the amount of \$481,714.50. Some reimbursement from the State could occur which would bring down the total cost to \$375,214.50 for the 35 portable radios and 39 mobile radios. Moved by Skarda, seconded by Lawlar, to approve the budget amendment of \$481,714.50 for the purchase of MCSO 2020SIRN radios as presented. All voting aye, motion carried.

Jessica Karls, KLJ, update the Board on the proposed County Route 2 project, including next steps and updates with the Forest Service. Karls stated the goal is to make the road safer and that alternates to the Dakota Skipper habitat were being considered. Veeder asked the timeline for the NEPA process and Karls stated it could be 2 to 3 years to completion. Karls stated the total cost of the evaluation is about \$300,000 with \$100,00 already committed. Board consensus was to move forward with the study at this time.

Moved by Veeder, seconded by Nordby, to approve the Long X Road Improvement Task Order with Moore Engineering for \$81,800. All voting aye, motion carried.

Moved by Nordby, seconded by Veeder, to approve the Master Service Agreement with Ackerman Estvold for County Route 6 Design Work. All voting aye, motion carried.

Moved by Veeder, seconded by Skarda, to approve the County Route 6 Task Order with Ackerman Estvold at a cost of \$372,800. All voting aye, motion carried.

The Highland Partners road agreement was pulled from the agenda for Township review before County action.

Skarda discussed road maintenance of 34<sup>th</sup> and 35<sup>th</sup> Street NW roads which are no longer being maintained despite being opened by petition in 1918 and no record of them being closed. Skarda stated she would find out more information about what they are requesting and bring back to the next meeting. Lawlar stated he would work on an agreement for the blading of private roads and bring to the May 19 meeting for discussion.

Moved by Nordby, seconded by Skarda, to approve the utility relocation agreement with McKenzie Electric for 11<sup>th</sup> Ave S at a cost of \$62,250. All voting aye, motion carried.

Moved by Veeder, seconded by Lawlar, to approve Change Order 3 to add 23<sup>rd</sup> St NW to the CR37/125<sup>th</sup> Project for \$2,743,256.26. The project will be done this year and includes 1.46 miles up to the development. All voting aye, motion carried.

Moved by Lawlar, seconded by Veeder, to approve the Scairt Woman Road Phase II Task Agreement with Brosz Engineering for \$62,725. Skarda asked about the status of road agreements or easements on Forest Service Land. State's Attorney Skarda and Auditor/Treasurer Johnsrud suggested working with CE Brooks on any use agreements. All voting aye, motion carried.

Nordby recommended an email be sent out to department heads to use the bulk tank system instead of gas stations to reduce costs.

Huus stated those that voted in favor of the CUP seemed to think the township had approved it, but the township now seems to object to the plan. Jay Lewis, Alex Twp, stated the township approved the CUP about a year ago provided all regulations of the Fire Department and Weed Control were followed, but some requirements have not been met and it was understood the project would remain on hold until all requirements were met. Lance Powell, Alexander Fire Department stated the Fire Department has not been contacted about the project and stated there was a lack of communication and that sufficient water was not available at the site in the event of an emergency. Discussion was held on what constitutes a dependable water source and how best to come to a recommendation that would satisfy the Fire Department's requirements for adequate water. Board consensus was to send this item back to the Planning & Zoning Board to determine with Alexander Fire Department what the appropriate amount of water storage was for this site.

Discussion was held on an upcoming NDIC hearing on oil waste. Board consensus was to not weigh in on the topic at this time.

Bids came in lower than anticipated and the Park District requested \$3.75M from the County to complete Phase I of the project. Several items were pulled out of the project that can be completed by the Park District at a lower cost. Veeder recommended to deal with funding requests after all had been presented during the meeting.

WC Mayor Riely addressed the Board regarding the funding request from the previous meeting. Riely stated the City of Watford City has already taken several steps to reduce spending including elimination of overtime and no new projects being started. Riely requested the County take over the 2019 and 2020 ETA Road costs and the 14<sup>th</sup> Ave SE project. Lawlar requested a JPA to transfer funds and that the bills be paid directly by the County as invoices are presented. SA Skarda stated a JPA would be needed for all fund transfers between the County and other taxing districts. SA Skarda will work on the necessary agreements and bring them back to the Board for approval. Moved by Veeder, seconded by Skarda, to take over the estimated \$8,299,828.09 costs

for the 2019 ETA Roads, 2020 ETA Roads, and 14<sup>th</sup> Ave SE road project from the City of Watford City contingent upon proper agreements being put in place. All voting aye, motion carried.

Alexander Mayor Wilcox requested funding from the County for current street paving projects that are ongoing in the City of Alexander. The estimated cost for 2020 is \$4M with an additional \$4M in 2021 to complete the other half of the city. Nordby asked what Alexander is putting towards the project. Wilcox stated Alexander has already paid all of the water and sewer infrastructure costs and will pay any costs over the \$4M, which is currently estimated to be between \$1-1.5M. Moved by Skarda, seconded by Lawlar, to create a Joint Powers Agreement with the City of Alexander to transfer \$4M for city road projects. All voting aye, motion carried.

VSO/Risk Manager Samuelson addressed the Board on behalf of Emergency Manager Jappe to request to purchase an enclosed trailer to store cots, blankets, and other emergency equipment. Moved by Veeder, seconded by Lawlar, to waive the fees, up to \$700, for both the in and out trips by A&B Pipeliners for work at the gun range. All voting aye, motion carried.

MCWRD Manager Shaffer requested guidance on 2020 water projects. Board consensus was for the Board to see all final bids on the projects to allow the Board to see associated costs. Shaffer asked if the Board wanted the MCWRD to oversee the sewer plan for the Athletic Park and Fairgrounds project. Board consensus was for the MCWRD to move forward with a study of the proposed sewer plan to include other options in consultation with the City of Watford City. Board direction to Shaffer was to present the bids for approval of these water projects, to move the redundant line across the Missouri River down the list of priorities, and to continue moving forward with the project to get water to the Squaw Gap area of the County.

HR Director Weber provided an update on the job description review of the Veterans Service Office position, which was placed at a C42. Weber stated there were 782 veterans in McKenzie County in 2019. Board consensus was to begin recruit for the VSO position as a C42.

Weber also updated the Board on discussions with EM Jappe and Chairman McCabe on the letter received from WCPD Chief Doble. Weber reported that many of the concerns in the letter had already been addressed with Jappe and that there was a need to reiterate Jappe's job duties and to recommend she stay within those. An example provided was that she does not respond to situations unless requested from the State DES, MCSO, or fire departments and to make a clarification that Jappe is not a first responder. Nordby stated the speeding concerns need to be addressed and recommended having a speed tracking device installed in Jappe's vehicle.

Discussion was held on reopening of County buildings to the public. Weber stated all departments completed the requested workplace assessment. Lawlar stated if the County was going to reopen that employees needed to return to their normal work hours and work stations. Kanwar requested waiting an additional 1-2 weeks to allow additional supplies to be delivered. Moved by Skarda, seconded by Lawlar, to open the Courthouse and Public Works Shop doors to the public beginning Tuesday, May 26, 2020, and for employees to return to normal work hours and work stations on that date, and to allow the Motor Vehicle Branch Office flexibility for appointments once the ordered glass partitions have been installed. All voting aye, motion carried.

Lawlar asked Weber about damage done to the new landfill building and if employees involved had been counseled or reprimanded. Weber reported that the new employee took responsibility and was counseled on the matter. Questions about the actions of the site foreman were raised and Weber was asked to further investigate the accident and report back to the Board at the next meeting.

Arnegard Mayor Eliot requested funding for paving projects within the City of Arnegard totaling \$4M, with 15-20% of the cost in 2020 and the remainder in 2021. Board consensus was to support the project through a Joint Powers Agreement with design in 2020 (estimated \$600,000) and construction in 2021 (\$3.4M). Eliot also requested reimbursement on other completed projects. Veeder stated no other city is being reimbursed for projects and that these funding requests are being considered only due to the impact of the oil industry price and production drop. The Board supports the cities in helping them get through this period of time but cannot guarantee any funding moving forward.

The Board tabled the US Forest Service Permit and ROW Task Order with Mountain Plains to the next meeting.

Discussion was held on the proposed County Route 2 project after review of a letter received from Debbie Riely of the USFS regarding the NEPA study. Riely stated they have met with KLJ and the County several times on the project and have discussed some of the things that could happen, but that there is no official application from the County at this time. Board consensus was to remove CR2 from the County CIP list of projects at this time due to landowner and other concerns and to only continue to work on maintenance items on the curves.

Kanwar asked for Board direction on the County Route 1 project. Board consensus was to maintain the current pavement portion but not to proceed further on the road at this time.

Discussion was held on an old scoria stockpile agreement with the Lelands. McCabe reported he and Road Superintendent Glover visited with the Lelands to discuss the agreement which expires in December. McCabe stated discussions need to occur regarding future sites and reclamation of the current site.

Auditor/Treasurer Johnsrud presented the 2018 draft audit from Eide Bailly to the Board and discussed the findings in the report and asked for any Board comments. The Board had no additional comments on the draft audit and was prepared to approve the final draft at the next Board meeting.

Discussion was held on the Private Drive Maintenance Agreement draft presented by Lawlar who worked with SA Skarda. SA Skarda asked for Board direction on changes they would like to see in the agreement and asked how auditing of the agreements would be conducted and asked for direction on the agreement term length. Board consensus was this is a document that would be recorded so that it could be located during property searches. Nordby asked how this agreement is different that requests that come from housing developments. Kanwar expressed concern over who gets service and who does not when no fees are involved. Lawlar stated the County would not be responsible for providing surfacing for roadways, but would just blade out ruts or plow snow a couple of times a year. Veeder suggested an initial term of 1 year to test the agreement to see how it worked. Nordby requested specific language regarding housing developments and also needed room for equipment turnarounds. SA Skarda will work to amend the draft agreement to include ingress and egress of subdivision roads, major snow events without a definition of specific inches, language about being maintained if no place to turn around, and a one year term and will bring it back for review at the next Board meeting.

The Board discussed maintenance on Garmann Hill. Lawlar had previously provided an easement stating maintenance would be done by the County and asked if the County would be doing the pavement lift on that segment of road. Board consensus was to provide the maintenance on this section of road. Kanwar stated he would visit the site and bring a cost estimate back to the Board for review.

# OFFICIAL PROCEEDINGS OF THE BOARD OF COUNTY COMMISSIONERS MCKENZIE COUNTY, NORTH DAKOTA

### June 2, 2020

The Board of Commissioners of McKenzie County, North Dakota met at the Commissioners Room at the McKenzie County Courthouse in Watford City, North Dakota on June 2, 2020. Present: Commissioners Tom McCabe, Howdy Lawlar, Kathy Skarda, Doug Nordby, and Gene Veeder, Auditor/Treasurer Johnsrud, and State's Attorney Skarda. Chairman McCabe called the meeting to order at 9:00 a.m.

Moved by Skarda, seconded by Lawlar, to approve the May 2020 Minutes as presented. All voting aye, motion carried.

Moved by Skarda, seconded by Nordby, to approve the bills as presented. All voting aye, motion carried.

Lawlar requested to pull Item 3 from the Commission Consent Agenda, Planning & Zoning Indemnification Agreements. Moved by Skarda, seconded by Veeder, to approve Commission Consent Agenda Items 1, 2, 4, and 5. All voting aye, motion carried. Items approved: 1. Courthouse Renovation Design Proposal – Hannaher's – Authorize Chairman to Sign; 2. Gaming Site Authorization – Outsiders Bar and Grill – Authorize Chairman to Sign; 4. Special Alcohol Permit – D&M's Office – Wedding Dance June 6, 2020; 5. Gaming Site Authorization – Sweet Crude Travel Center.

Discussion was held on Commission Consent Agenda Item 3: Planning & Zoning Indemnification Agreements. Lawlar stated he had received calls from Planning & Zoning Board members regarding confusion over an indemnification agreement that was presented as Hartel Water Depot and then was approved as Elkan Inc. Lawlar asked if business bonds could also be waived or only private landowners. Planning Director Huus sated the ordinance states landowners and does not specify if individuals or businesses. Skarda questioned circumstances in which the landowner may sell land to a private company for a pond and then the business folds and how reclamation would occur. Veeder stated that it was a split vote at the Planning & Zoning Board and that some agreement needs to be made about the county's responsibility on these fresh water ponds. Veeder stated he did not see the potential damage with a fresh water pond and that he doesn't want to prevent people from doing their business. Skarda requested to know the dates the compliance checks will be completed and then iron out further details at Planning & Zoning Board meetings. Moved by Nordby, seconded by Veeder, to approve Commission Consent Agenda Item 3: Planning & Zoning Indemnification Agreements. All voting aye, motion carried.

Skarda also asked Huus to review the permit document that had been provided to make sure the form is completed when fees are paid, even if waived or cancelled.

Huus stated the spreadsheet is not the final draft as this information is now held in the program iWorx.

Skarda provided an updated on the Waste Management NDIC item, which has been extended another 120 days. Veeder reported the hearing on waivers for shutting in wells and calling oil a waste product was just a hearing with no conclusion and is probably a non-issue at this time. Veeder stated that it appeared the oil companies were also not interested in this and that no position is needed from the County at this time.

Emergency Manager Jappe approached the Board regarding the 17<sup>th</sup> Annual First Responders Dinner. Moved by Nordby, seconded by Veeder, to cancel the First Responders Dinner due to the Governor's social distancing recommendations and to still support the four awards. Discussion was held that additional precautions need to be taken as the people that would attend these are vital to the safety of the community and that the Board still would like to recognize their work with the Law Enforcement, Fire, EMS, and Dispatch awards. All voting aye, motion carried.

HR Director Weber requested guidance on how to proceed with the Veterans Service Officer Recruiting. Weber stated he had received about 20 applications for the position so far and asked how the Board would like to proceed for interviews. Nordby stated that typically two people on a committee select five to six candidates to interview before the full Board. Nordby recommended McCabe work with Weber on identifying the applicants to be interviewed.

Weber updated the Board on an accident at the landfill that was previously discussed. Weber further investigated the event and stated that both employees involved were written up. The newer employee took responsibility for the incident. Weber also stated a foreman was on site and was partially at fault as a supervisor but was not directly involved in the accident.

Economic Development Coordinator Stenberg and Jerry Berman approached the Board regarding a safflower oil refinery feasibility study. The study cost is \$16,000 and the JDA will be putting \$8,000 towards the project and is requesting the Board fund the remaining \$8,000 as this is an opportunity to further diversify the local economy. Moved by Nordby, seconded by Skarda, to approve \$8,000 towards the Safflower Refinery Feasibility Project. All voting aye, motion carried.

Sheriff Johansen requested to expand the current impound lot at the old County Shop property. The items are required to be in a secured lot and the lot is currently full. Moved by Veeder, seconded by Skarda, to survey the impound lot to include expanding it and to approve the Dakota Fence bid with a budget amendment. Nordby asked what is out at the landfill impound lot. Johansen stated there is no lighting or cameras out there which would need to be installed to use it as a secure impound. All voting aye, motion carried.

Lt. Matthews-Kasner presented a proposed vehicle replacement schedule for the Sheriff's Office fleet. Kasner stated this would be trades and purchases with no increase in fleet numbers or surplus. Kasner stated there are 17 vehicles next year that would be over 120K miles or just under that by June 2021. Nordby stated he wanted to see the vehicles spaced out over the years and work to that effect for more reasonable asks for budgeting purposes. Skarda requested a history on vehicle maintenance. Kasner stated there are currently 45 vehicles in the Sheriff's Office. Nordby asked to put together a plan to get onto a schedule. Kasner stated they were asking for 2021 budget guidance and this would be 17 replacements in 2021. Kasner asked if they have to wait to order until January and Nordby stated they could be ordered earlier but need to be paid for in 2021. Nordby asked for the Sheriff's Office to bring back a plan for a 5 year cycle of replacements and the Board consensus was to bring to the 2021 budget hearings a plan for 10-12 vehicles in 2021.

Sgt Clock discussed the 911/SIRN system with the Board and requested outfitting dispatch with the same system as the new 800 MHz radios. Additional circuits would need to be installed and an engineer will be on site soon for a final quote and that estimates for a 3 position system is \$380,000 plus \$17,000 and a 4 position system is \$420,000 plus \$17,000. The cost after that is \$15,000 per year until the 5<sup>th</sup> year when the warranty costs would increase. Clock also presented information on the Vesta System as the contract for State Radio will be going up this fall. Currently approximately \$117,000 is obtained in revenue for fees but the new contract with State Radio would cost approximately \$240,000. Johnsrud asked if this meant State Radio would no longer dispatch 911 for McKenzie County and Clock stated that would be correct. Nordby stated that before any decision is made additional information as far as equipment, personnel, and associated costs is needed. Nordby was concerned with the turnover of staff and continual training and whether or not it would be worth the cost for public safety. The Board also wanted input from other emergency responders before moving forward. Skarda requested to wait on any decision until the final quotes are provided. Board consensus was to make no decision at this time until additional information on costs and input from other agencies is obtained.

Facility Administrator Buck discussed quotes received for security cameras at the Cartwright Shop. The quote received from RTC was \$12,000 in comparison to the quote from ITS for \$23,000. Buck stated PWD Kanwar requested he look into security cameras at all county shops after an incident in Grassy Butte. Buck stated these cameras would be both inside and outside and would help with accidents, monitoring of work being performed, tools, etc. Buck stated this was not in the budget at this time and Johnsrud stated this should be paid from the Road & Bridge Shop Maintenance line item. Moved by Lawlar, seconded by Skarda, to approve the bid from RTC for \$12,449.66 minus the tax of \$314.75. All voting aye, motion carried.

Moved by Lawlar, seconded by Nordby, to approve the 2020 Aggregate Stockpile Agreement with Terracon for \$26,125 as presented. All voting aye, motion carried.

Assistant Engineer Mohamed presented the revised CIP for the Road & Bridge Department, which removed CR2 and updated CR1 from 10 miles to 7 miles. Nordby asked if the department had gotten back to Johnsrud regarding 2020 estimated expenses for work that would be completed this year. Johnsrud stated that had not been supplied and Nordby stated it needed to be a priority for budgeting purposes in 2021. Moved by Veeder, seconded by Nordby, to approve the updated CIP as presented. All voting aye, motion carried.

Moved by Skarda, seconded by Veeder, to approve the Change Order for CR37/125<sup>th</sup> for \$74,222.31. All voting aye, motion carried.

The County 2020 Equalization public hearing was held. Recorder/Tax Director Paulson presented her 2020 Equalization notes. One appeal from Austin Glidewell, Pivotal tax Solutions was heard. Glidewell was looking for economic depreciation on buildings and provided his own cost approach for the property. Paulson stated he looked at comparable sales for this property and that those sales indicate the values are within tolerance with her value. Glidewell stated needed to look at market trends and that there are no properties that are comparable to this one in McKenzie County. Paulson stated that in tax equalization trends cannot be used as sales data is the requirement for assessments. Nordby stated that all properties have to be treated in the same manner and that is the role of the County and that values may go down in 2021 due to new sales information at that time. Moved by Nordby, seconded by Veeder, to deny the appeal from Pivotal Tax Solutions on parcel 65-02-00200 and to accept the proposal of Recorder/Tax Director Paulson on 2020 equalization values. All voting aye, motion carried.

#### 2020 Equalization

Property valuations are required to be between 90-100% of market value for residential and commercial valuations. After completing the sales ratio study for the sales in 2019 I determined that I needed to make a few adjustments to some areas. Overall the ratio was slightly low for the residential sales & commercial sales.

## **Preliminary Ratios:**

Residential: 86.4% Commercial: 84%

The manual level was adjusted on both residential and commercial properties to keep the pricing in line with the market for both classes. We adjusted our replacement cost by 5% to keep up with the new construction sales.

The other adjustments that were made were 5% increase to the following townships:

Arnegard, Twin Valley, 149-98, 149-99, 150-98, & 150-99

These increases were to adjust for the prime market areas in the county which the sales indicated that we needed about 12% total to get to market value. Sales in these areas were consistently around 80% of our 2019 values.

The entire county saw an increase in the rural residential sites for smaller 5-10 acre tracts of land with a house. An adjustment was made on all residential sites to account for the sales of these types of property. The sales indicated that we needed to add value on the land as our ratios on many of those sites were running in the 70% range. We have a good handle on the replacement cost of the homes, so increasing the value of the land is the way to address this trend.

Agricultural land received a 6% increase this year. After 3 years of remaining the same, NDSU indicated that our average value per acre should be \$316.13. After adjusting the pricing tables in our soil calculation system, the final average value in our system is \$290.74 which brings the values within tolerance at 91.3%

Final Ratio after pricing adjustments, all three classes are within the tolerance for state requirements.

Residential: 94.5% Commercial: 90.7%

Ag: 91.3%

All three classes of property are in tolerance with state requirements, and the statistics achieved to measure the accuracy of our assessments are showing that we have uniform assessments within our county.

McCabe updated the Board on the old stockpile agreements. McCabe stated there was one agreement that was pending and requested the hiring of an outside attorney to handle the issue due to a State's Attorney conflict of interest. Suggested firms were Smith Porsborg or Vogel Law on availability to handle the agreement issues.

Discussion was held on the private driveway maintenance agreement. The term was changed to one year, included subdivisions providing a turnaround was available, and removed the snow depth designation for a major snow event. Veeder stated to move forward and try the agreement for one year to see how it worked. Skarda requested information on how the audits would be conducted to make sure agreements were in place. Lawlar recommended a calendar year for the agreement regardless of when it was signed so that all would expire on January 1 to make audit and tracking easier. Board consensus was that this was up to the homeowner to get an agreement and bring it back to the County for approval and that the agreements would be recorded. SA Skarda will bring back the agreement to the next meeting with the change to a calendar year.

Skarda recommended adding to the Handbook Committee a discussion on building closures and to review what worked and what didn't in the COVID-19 pandemic. Weber agreed and would add this to the handbook sections to address.

Shaffer said that if the County authorizes WAWSA to award the project and the State Water Commission opens funding back up the project will not be able to be considered for State funding at that time. Veeder stated this has been a priority project to get water to rural residents and would like to see this move forward. Lawlar asked if the Sheriff's Office had been contacted to assist with speed enforcement and Bednarik stated that they had been. Board consensus was to assist with dust control on the road and asked Bednarik to work with Sioux Township for the speed limit on that section. The Board was also in support of shutting down the road to property apply dust control and requested Tim Pickering to be the point of contact.

VSO Samuelson requested the DD214 records be moved from the Recorder's Office to the Veterans Service Office for filing and safekeeping. Moved by Veeder, seconded by Skarda, to designate the Veterans Service Office as the location for filing of veteran discharge paperwork. All voting aye, motion carried.

Dave Uhlich, Watford City Fire Department, was presented the McKenzie County Fire Fighter of the Year Award.

MCWRD Manager Shaffer, on behalf of the Compensation Committee, requested the addition of a B23 DBM to the Sheriff's Office for hiring of deputies with no experience and who have not completed the academy. Moved by Lawlar, seconded by Veeder, to approve hiring of deputies in the Sheriff's Office who have no experience and have not attend the academy as a B23 Step 1 and once they have graduated from the academy to move to B24 Step 1. All voting aye, motion carried.

HR Director Weber requested approval to form an Employee Engagement Committee, as a recommendation from Brandon Kummer. The goal of the committee is to enhance morale between employees, especially now that employees work at many separate locations. The proposal was for a committee of 9 members serving 3 month

terms, to be chosen at random, who would meet during work hours to plan events to be held after hours and at the expense of participating employees. The Board was supportive of the idea but requested to move the committee to 5 members and to wait to implement until a COVID vaccine was available. Moved by Lawlar, seconded by Nordby, to establish the Employee Engagement Committee, consisting of 5 members, and to implement following a COVID vaccine. All voting aye, motion carried.

Weber also discussed proposals to reduce auto liability for the County. The first proposal included stricter standards when hiring new employees and guidelines for moving violations that would count against the prospective employee. Weber stated this would be for employees whose jobs required driving as either an essential or primary duty and that he had spoken to departments and that all were on board with being involved. The second proposal was that all drivers would be required to complete driver training courses within the NDIRF member training center every three years. PWD Kanwar stated the Cal/Amp system has the ability to alter department heads of time, location, and speed of vehicles. The third proposal was to form a Driving Incident Review Board/Accident Review Board to review all accidents and recommend disciplinary action, if warranted. The Board consensus was to move forward with these proposals, tweak them as needed, and to ensure that all departments are involved and have an opportunity to provide input.

At 10:00 a.m. a public hearing was held on the Prairie Woodlands Special Assessment District. No persons from the public were present for or against the special assessment district. The Board had concerns given current budget and revenue considerations about paying for the cost up front and then collecting with special assessments over the next several years. The Board also wanted to see a high percentage of approval from the lot owners in the subdivision. Moved by Veeder, seconded by Lawlar, to reject the Prairie Woodlands Special Assessment District at this time. Kanwar requested to update the process so that the petitioners would also be required to hire an outside engineering company to design the work. All voting aye, motion carried.

Andy Mogen, Hawkeye Township, discussed with the Board the 41<sup>st</sup> St Road Improvement Box Culvert project. Mogen reported the County Land Agent has completed the right of way acquisition for the project. Permitting Specialist Pickering stated a Joint Powers Agreement was not finalized as the total project cost was not known. Nordby asked if this was in the Road and Bridge budget, which Pickering stated it was not. Board consensus was that, as this project was not in the budget, the project would either have to be placed on hold or funds secured from another line item to move forward. The Board supported the project and requested Mogen return in early 2021 once additional budget and revenue information was available.

Moved by Veeder, seconded by Skarda, to approve the CR55 Design Task Order Amendment with KLJ for \$220,990. All voting aye, motion carried.

Moved by Skarda, seconded by Veeder, to approve the Linda Monson Road Maintenance Agreement as presented. All voting aye, motion carried.

Moved by Veeder, seconded by Nordby, to approve the material testing agreement for box culverts with Terracon. Discussion was held on the total cost. Kanwar stated the cost was \$3,000 to \$4,000 per location and that there are seven sites to test. All voting aye, motion carried.

Moved by Veeder, seconded by Skarda, to rescind the motion from the August 4, 2020, Board meeting regarding maintenance of 126<sup>th</sup> M Ave NW as the road was quit claimed to an adjacent landowner. All voting aye, motion carried.

Kanwar requested a change in the CR37 road project from putting in rumble strips to putting in mumble strips, which lessen the noise heard by surrounding homes but maintain the noise heard in vehicles when crossed on the roadway. Kanwar stated it is approximately \$1,000 more per mile and would add about \$19,000 to the project. The Board consensus was to proceed with the mumble strips as a trial on CR37.

Brady Bertram, Brosz Engineering, discussed the slopes on the new CR37 project. Bertram stated the slopes follow road standards and allow for 42 feet from the center line as a clear zone. Bertram said that outside of the clear zone the slopes do get steeper.

Skarda requested information on the Cal/Amp project from Kanwar on the status and final costs of that implementation. Kanwar stated he will request Fleet Manager Hansen to update the Board at the September 15 meeting on the system.

Johnsrud presented information on the 2021 budget, which included new numbers provided from the Road and Bridge Department. The public hearing on the budget will be held on September 15 at 6:00 p.m. CT.

SA Skarda is working with the City of Watford City to update the agreement for the Library/Veterans building.

BCBS medical, dental, and vision insurance premiums for 2021 were discussed. Johnsrud presented recommendations on increases, which included maintaining vision and dental premiums and increasing medical premiums by 5% due to increased administration costs, which are tied to claims of employees. Moved by Nordby, seconded by Skarda, to approve the BCBS premium increase of 5% for medical insurance and no change in vision and dental insurance premiums as presented by Auditor/Treasurer Johnsrud. All voting aye, motion carried.

Johnsrud update the Board on the CARES Act funding received from the State of North Dakota. Johnsrud requested guidance from the Board on distributions of funds to cities that contract law enforcement with the County, which is only Alexander at this

time. The Board requested Alexander to work on an amount of expenses related to COVID and bring to the Board at the next meeting.

Nordby reviewed with the Board a 2014 County Transportation Study in order to pass on information about projects and needs identified at that time. Nordby encouraged all Board members to review the document to see where the County was at that time and now the next plans could build off of this one moving forward.

Chairman McCabe asked for a motion to close the meeting and enter into Executive Session for attorney consultation on Duck Pond Tax Foreclosure Litigation pursuant to NDCC § 44-04-19.1(2). Moved by Lawlar, seconded by Nordby, to enter into Executive Session for attorney consultation. Roll call vote: Skarda, aye; Nordby, aye; McCabe, aye; Veeder; aye; Lawlar, aye. Motion carried.

Executive Session began at 11:34 a.m. and was attended by Commissioners Lawlar, McCabe, Nordby, Skarda, and Veeder; State's Attorney Skarda, and Auditor/Treasurer Johnsrud.

Executive Session was adjourned at 11:37 a.m. The public was invited to return to the meeting room and the meeting returned to open session.

Moved by Nordby, seconded by Skarda, to follow the advice of counsel on the Duck Pond Tax Foreclosure Litigation. All voting aye, motion carried.

The meeting adjourned at 11:45 p.m. until September 15, 2020, at 1:00 p.m.

Moved by Veeder, seconded by Skarda, to approve the Planning & Zoning Consent Agenda Items 1 and 2 as presented. All voting aye, motion carried. Items approved: 1. Wagoner #06-20-Minor Subdivision - The Wagoner's are purchasing 40 acres from the 159.66 acres of Joann Schneiderman to build a home. This purchase encompasses the old farmstead on 130th Avenue NW in Arnegard. Planning & Zoning Board recommend approval of #06-20SUB-Wagoner to the County Commission to allow Benjamin & Teela Wagoner to subdivide 40 acres from the 159.66 owned by Joann Schneiderman in order to build a new home. Adopt the findings and conditions in the staff report. 2. Building Permit Fee Schedule - Amendments to the Building Permit Fee Schedule. See schedule attached. Planning & Zoning Board recommend approval of the Amended Building Permit Fee Schedule to the County Commission. Adopt the schedule which is presented here today as an attachment.

Commissioner Nordby arrived at 1:07 p.m.

Landfill Director Schreiber requested to release bids for the landfill scale office building project in order for work to begin in spring 2021. Moved by Veeder, seconded by Lawlar, to release a bid notice for the landfill scale house as requested. All voting aye, motion carried.

Discussion was held regarding gas and diesel tanks for the landfill as it was discovered that currently owned tanks by the County would not be usable at this site due to code issues. Schreiber requested one 4,000 gallon diesel and one 2,000 gallon gas tank and stated these were non-budgeted expenses as unknown at the time. Cost estimates, as provided by Burns and McDonnell, are \$60-70,000. Nordby asked if there are other places in the Landfill budget where this cost can be absorbed. Schreiber stated there was \$51,000 remaining in the landfill shop contingency fund and the consensus of the Board was to proceed with the new tank project.

Schreiber informed the Board that he had been contacted by a company within the community that has proposed to take all used oil from the Landfill at no cost to the County as it is used to heat their shops. Schreiber stated they have requested paperwork to indicate amounts of oil removed from the Landfill to remove liability as well. SA Skarda requested to work with Schreiber about the process moving forward. Board consensus was to move forward with this method of disposing of waste oil.

The Board presented awards to the following individuals: Dave Uhlich, Fire Fighter of the Year, and Tana Hinrickson, EMS Provider of the Year.

Planning Director Huus discussed the open Code Enforcement/Fire Official position with the Board. Huus recommended advertising for a Compliance Officer I instead, which is just the code enforcement portion and then to contract out the fire

inspection services. Huus has spoken with the State Fire Marshall who would be able to review all plans for fire suppression systems. Lawlar stated there are local fire fighters who could likely perform these services on a part-time basis. Board consensus was this would be a good direction to proceed and emphasized the need for filling the compliance position with someone that was efficient, knowledgeable about the codes/ordinances, and had good interpersonal skills.

Veeder requested Huus to update the Board on the public hearing process on the ag properties and permits/fees for those structures. Huus reported that Planning & Zoning held two public hearings to talk about the fee schedule and ag exemptions and that three issues came up repeatedly: building permit fees, building permit requirements for single family residential homes in the ag district, and concerns about the inspection and approval process. Huus stated the fee schedule was updated and a new amendment is being drafted to address the concerns raised.

Mountrail McKenzie Human Service Zone Director Sorenson provided an update to the Board on the 2021 MMHSZ budget. Sorenson stated the zone process is going well and that collaboration efforts are getting back on track after the COVID pandemic caused some delays. Work is continuing on an updated zone HR policy manual.

Permitting Specialist Pickering updated the Board on the 21<sup>st</sup> Street NW low water crossing project, which included material costs of approximately \$33,000. Lawlar asked about the amounts of gravel used on the project for a minimum maintenance road. PWD Kanwar stated the department fixed items that needed to be addressed while working on the project. Nordby recommended giving more clear direction to Road & Bridge about projects such as this if going to cause problems moving forward. Veeder suggested a future conversation about how to improve minimum maintenance roads going forward so everyone is in agreement with the process and standards before work begins.

Moved by Nordby, seconded by Skarda, to approve the utility relocation agreement for Demicks Lake for \$190,000 with McKenzie Electric. All voting aye, motion carried.

Assistant Engineer Mohamed requested the Board approve a design task order for County Route 1. Skarda expressed concern over the US Forest Service land along the project route and if the existing easement covers this new project. Mohamed stated this is the design only and the implications to landowners will be identified and detailed once the design process begins. Skarda and Lawlar stated they have received information from landowner that they don't feel this project is needed at this time. Kanwar stated he has also heard from landowners in support of the project and that the design task order includes a public hearing process so landowner concerns can be heard and addressed. Kanwar stated the process needs to begin early as it can take 3-4 years for all permits to be approved. Veeder stated he was frustrated with the opposition to road projects and stated the County needs to think about planning for the

future for these types of projects as they can take a significant amount of time, but respects the concern about financial costs of projects at this time. Veeder stated he is worried the County is removing projects that need to be done as there is a need to maintain the roads that are currently in the system, but respects the landowner in the process as well. McCabe stated the road is beginning to spider and shoulders are beginning to fail so there is a need to begin the project. McCabe asked if a public meeting can be set for the Cartwright Hall for the public to discuss the project before any plans are prepared. Board consensus was to hold a public meeting regarding the project and then decide whether or not to move forward.

Moved by Nordby, seconded by Veeder, to approve the purchase of a mower from Border Plains for \$45,200.00 as presented. All voting aye, motion carried.

Moved by Skarda, seconded by Veeder, to approve the asphalt cutting saw from RDO Equipment for \$16,265.00 as presented. All voting aye, motion carried.

Fleet Manager Hansen discussed the CalAmp project with the Board. Hansen stated he is working on a reimbursement for an overpayment that was recently identified. Hansen stated the contract will run from September 2020 to September 2021 for the service plan as the County had been waiting for parts. Commissioner Skarda asked for an amendment in writing to the contract that outlines the service plan dates. Hansen stated he has facilitated a webinar with department heads so they are aware of the available data from the system that will be in the vehicles.

Hansen provided information on cooperative purchasing to the Board. Hansen stated using these agreements can provide a cost savings over sealed bids and requested to move forward using them. Skarda asked about local vendors and how they would be involved in the process and Hansen stated he will always get quotes from local vendors. No decision was made by the Board on this topic.

Moved by Nordby, seconded by Skarda, to approve the Fairview Ambulance Barn Joint Powers Agreement as presented and authorize the chairman to sign. All voting aye, motion carried.

Moved by Veeder, seconded by Nordby, to sign the Memorandum of Understanding with the Bureau of Land Management and to set the Auditor/Treasurer and Chairman as contact persons at this time. The Board requested Johnsrud to update BLM with new contacts once the new Board is in place following the election in November. All voting aye, motion carried.

Moved by Skarda, seconded by Veeder, to approve the Guaranteed Maximum Price Amendment with FCI Constructors for the Courthouse Renovation Project. All voting aye, motion carried.

Moved by Veeder, seconded by Nordby, to approve the City of Watford City Joint Powers Agreement for Wolf Run Village as presented and authorize the chairman to sign. All voting aye, motion carried.

HR Director Weber requested authorization for the mag and dirt crews to drive their personal vehicles to job sites instead of riding together in a County vehicle due to COVID close contact potential situations as this could remove an entire crew if one employee tests positive. Weber stated there were about 15 employees total within these three crews and average distance to work sites is 30 miles one way. Moved by Nordby, seconded by Veeder, to allow the mag and dirt crew employees to take personal vehicles to job sites through December 2020 as requested. All voting aye, motion carried.

Weber presented information on workforce planning to the Board including historical information and cost analyses. Weber asked for direction from the Board on filling vacant positions and the County's financial position. Weber stated he is actively recruiting for sheriff deputies, a legal assistant, and water technician. Skarda read minutes of previous meetings where the topic was discussed for reference. Veeder stated all departments need to be sure there is justification for positions as they are vacated and refilled. Board consensus was for HR to have discussions with department heads about needs within their departments as these situations occur. Discussion was held on holding open positions in the budget and the Board expressed hesitancy about leaving positions open and funded in budgets at this time. Lawlar stated that the Board realizes things have slowed down and if positions are removed from budgets but needed in the future and can be justified the Board would see that as well and authorize the addition. Veeder stated that department head cooperation now when funds are needed to be conserved would be on records as departments make efforts to consolidate now should additional cuts need to be made in the future. Skarda also asked about overtime costs and if those costs are being examined for efficiency. Nordby stated that employees need to be efficient and that some overtime costs can be reduced with proper management by the supervisors.

State's Attorney Skarda and Commissioner Skarda recused themselves from the meeting at 3:32 p.m. prior to discussion of the Executive Session item.

Chairman McCabe asked for a motion to close the meeting and enter into Executive Session for attorney consultation on Leland Stockpile Litigation pursuant to NDCC § 44-04-19.1(2). Moved by Veeder, seconded by Nordby, to enter into Executive Session for attorney consultation. Roll call vote: Nordby, aye; McCabe, aye; Veeder; aye; Lawlar, aye. Motion carried.

Executive Session began at 3:37 p.m. and was attended by Commissioners Lawlar, McCabe, Nordby, and Veeder; Special Assistant State's Attorney Norgard, Auditor/Treasurer Johnsrud, PWD Kanwar, and Road Superintendent Glover.

Executive Session was adjourned at 3:56 p.m. The public was invited to return to the meeting room and the meeting returned to open session.

Moved by Veeder, seconded by Nordby, to follow the advice of counsel on the Leland Stockpile Litigation. All voting aye, motion carried.

The meeting recessed at 3:58 p.m. until 6:00 p.m. At 6:00 p.m. the meeting reconvened for the public budget hearing. Present were Commissioners Lawlar, Veeder, McCabe, Skarda, and Nordby. Also present was State's Attorney Skarda, Auditor/Treasurer Johnsrud, Recorder/Tax Director Paulson and three members of the public.

Johnsrud presented the preliminary 2021 budget and examples of tax implications for properties within McKenzie County.

Chairman McCabe opened the meeting for public comment. Gene Transtrom expressed concern over increased taxes within the County and over spending, particularly with the 21<sup>st</sup> St NW low water crossing.

The meeting recessed at 6:30 p.m. until September 24, 2020, at 11:00 a.m.

### **Special Meeting September 24, 2020**

The Board of Commissioners of McKenzie County, North Dakota met at the Commissioners Room at the McKenzie County Courthouse in Watford City, North Dakota on September 24, 2020. Present: Commissioners Gene Veeder (by phone), Howdy Lawlar, Tom McCabe, and Kathy Skarda (by phone). Also present Auditor/Treasurer Johnsrud and State's Attorney Skarda. Chairman McCabe called the meeting to order at 11:00 a.m.

The purpose of the meeting was to discuss three topics: 1. Sheriff's Request for a building at the impound lot; 2. Additional user authorization for the Spring Creed 3 Water Project; and 3. COVID-19 discussion.

Sheriff Johansen requested an increase in his county credit card to allow for the purchase of a building for the impound lot. Moved by Lawlar, seconded by Skarda, to authorize the temporary increase of Johansen's credit card for the purchase of the building at a cost of \$3,249. McCabe stated there was no issue with the City about permits after speaking with Moen. All voting aye, motion carried.

MCWRD Manager Shaffer requested authority to add users to the Spring Creek 3 Water Project. Shaffer asked for approval to move contingency funds from other projects to this project to cover the cost, which is approximately \$250,000. Moved by Veeder, seconded by Skarda, to approve moving contingency funds from other water

projects to this project as requested. Shaffer stated the line being engineered had capacity to add users as requested. All voting aye, motion carried.

Emergency Manager Jappe and HR Employee Facilitator Northrup discussed the recent rise in COVID-19 positive cases within the County. Jappe requested to form a task force with one employee from each county department. Northrup stated the County had moved from a green to a yellow risk level by the Governor and summarized those changes. Discussion was held on employees impacted by daycare closures and Northrup stated they are still covered by the expanded FMLA (FFCRA) through December 31, 2020.

Moved by Veeder, seconded by Skarda, that in response to increased COVID-19 risk in McKenzie County, each department head is to review their department staffing levels and to determine the best way for their department to meet the needs of the public, while still conducting the business of the department/County, and to send a summary report of their COVID plan to Human Resources for distribution to the Board. All voting aye, motion carried.

The meeting adjourned at 11:38 a.m. until October 6, 2020, at 9:00 a.m.

Erica Johnsrud, Auditor/Treasurer Thomas McCabe, Chairman

Board consensus was to table Item 7 until PWD Kanwar was present to answer questions. Lawlar asked if the local fire districts and firefighters would be able to do those inspections. Huus stated he was supportive of a meeting with the fire districts to discuss the inspections. The Board was in support of the plan that was presented and authorized Huus to continue working on it moving forward.

At 10:00 a.m. a public hearing was held on omitted properties. Recorder/Tax Director Paulson asked for Board guidance on property owners that refuse to do the income verification. Moved by Skarda, seconded by Nordby, to add the omitted property to the tax rolls as presented. All voting aye, motion carried.

Moved by Nordby, seconded by Skarda, to approve abatement applications 4246-4248 as presented. All voting aye, motion carried.

The Board discussed an update to the County Burn Ban with Emergency Manager Jappe. Jappe requested to ban all burning regardless of the fire index until November 1. Discussion was held about enforcement of the ban. Moved by Veeder, seconded by Skarda, to implement a full burn ban through October 31 to ban all burning regardless of fire index and to revisit if needed. All voting aye, motion carried. The Board also directed the Road Department to keep water trucks full for the next few weeks to be used if needed for firefighting.

Steve Rolla approached the Board regarding the closure of a road along an irregular track of land he owns. The road is not on a section line and is no longer maintained. Rolla wants to rebuild the fence there and place it where it should be. The Board requested the adjacent landowners to agree to the closure and then for Rolla to return. SA Skarda will research what needs to happen if the road is closed and there is an existing easement.

Justin McQuiston approached the Board regarding gravel being added and spread to a private driveway on September 15 just off of Highway 68. Skarda asked if the new equipment tracking program would be able to find out where this occurred. Blaine Karst stated he always knew the road to be a McKenzie County Grazing Association road on which the County provided maintenance. The Board asked Tommy Glover and Blaine Karst to check in with the grazing association on the road and return with information.

Moved by Veeder, seconded by Skarda, to approve the Sharbano agreement with Richland County for a water meter radio repeater as presented by MCWRD Manager Shaffer and to authorize the chairman to sign the agreement. All voting aye, motion carried.

HR Employee Facilitator Northrup discussed the Military Leave policy with the Board. Northrup asked for guidance for employees gone on deployment. Veeder and Skarda agreed that the public would be in support of continuing benefits. Lawlar asked what the State's policy was on military leave. Northrup stated she would do additional research and come back at the October 20<sup>th</sup> meeting.

Northrup requested backpay for S. Wellen for time in 2019 when she should have received pay but did not. Moved by Veeder, seconded by Skarda, to approve the backpay request for S. Wellen as presented in the amount of \$5,102.36. All voting aye, motion carried.

Northrup presented a request for backpay to S. Lisok for time in 2019 and 2020 when he was in the field working and received a 30 minute lunch deduction when other employees with the same position did not. Moved by Nordby, seconded by Skarda, to approve the backpay request for S. Lisok as presented in the amount of \$3,562.98. All voting aye, motion carried.

Moved by Lawlar, seconded by Nordby, to approve the use of the PW building for a flu shot drive through clinic by the McKenzie County Healthcare System as requested on October 17 and 24. All voting ay, motion carried.

Discussion was held on the Garmann Hill Road. Skarda stated she had a conversation with citizens asking why 10<sup>th</sup> St wasn't been paved as others had been done. Nordby stated that the landowners had originally paid for the initial paving with an agreement with the County to maintain it. Nordby stated he would like to see this done as a special assessment district and that the rest of the subdivision was done as part of the City of Watford City ETA/CIP agreements. Veeder suggested the homeowners contact the Public Works and the City of Watford City to see if this can be added to a future CIP. The Board requested the Road Department maintain the road and add mag chloride as needed.

Moved by Skarda, seconded by Lawlar, to distribute \$11,000 to the City of Alexander as requested as part of the CARES funding receive by the County. All voting aye, motion carried. Moved by Lawlar, seconded by Skarda, to set the 2021 Board of County Commissioner meeting dates as presented. All voting aye, motion carried.

Moved by Lawlar, seconded by Veeder, to remove the burn ban regardless of fire index language from the burn ban effective immediately and return to the burn ban to the original restrictions based on the fire index. All voting aye, motion carried.

The Board held a discussion on COVID protocols due to the increase risk level assigned to the County from the State. Nordby stated he wants to request the public coming into the building to wear a mask, as well as employees, if social distancing cannot be maintained. Nordby stated this will help eliminate quarantine of employees if both parties are wearing masks. Nordby would also like to see a recommendation from the Board to ask businesses in the County to have patrons wear masks and have them available at the door. Moved by Veeder, seconded by Nordby, to adopt the policies for McKenzie County employees to wear masks when unable to socially distance from others, to request at the public entrances that the public wear a mask, and to request all non-county employees working in the building to follow the same policy. All voting aye, motion carried.

The meeting adjourned at 4:33 p.m. until November 4, 2020, at 9:00 a.m.

Erica Johnsrud, Auditor/Treasurer Thomas McCabe, Chairman

Veeder updated the Board on the Wolf Run Village Project, which are the housing units near the Elementary School. Veeder provided background on the project, and currently the County is subsidizing, up to \$15,000 a month, the shortfall. Veeder stated it is now time to begin working to sell the properties to a private company. Discussion was held on ways to make the property more marketable, including an option to buy down the mortgage, which would help the property obtain a better cash flow state. Moved by Veeder, seconded by Lawlar, to allocate \$1.4M of the remaining Wolf Pup II project dollars to the Wolf Run Village buy down and transfer the remaining funds to the County's General Fund to be used for the monthly deficit payments until the property is sold. Lawlar asked about the possibility of paying off the HIF and LEPP portion of the property instead of buying down the mortgage and would like to look at that as an option as well. Consensus was the JDA would continue to work through options and come back to the Board with a suggested at a future meeting. All voting aye, motion carried.

A public hearing was held beginning at 10:09 a.m. on the minimum prices of the tax sale properties. Johnsrud reported on additional dollars needed to be added to the properties in the City of Arnegard at the request of the Arnegard City Auditor. Lawlar asked about the model selected, Ford Interceptors. Newman stated the preferred model was a Chevy, but those would not be available until the end of 2021 at the earliest and the purchase of the Fords would allow for variety within the fleet to determine what works the best. Newman stated the current plan is to purchase 6 Tahoes, 5 Interceptors, and 1 F250. Moved by Lawlar, seconded by Skarda, to authorize the purchase of 12 new MCSO squad vehicles as presented and to donate Unit 21 to the Grassy Butte Fire Department through a Joint Powers Agreement. Planning & Zoning Board recommend approval of #08-20SUB-Kreil Subdivision to the County Commission to allow Cody and Emily Kreil to subdivide 40.04 acres from the total 238.80 acres owned by Steve Erickson in order to build a new home. Adopt the findings and conditions in the staff report.

Discussion was held on Planning & Zoning Consent Agenda Item 2 – Dixon Properties LLC #13-20CUP. The recommendation from the Planning & Zoning Board was to deny the application due to noncompliance of existing ponds. Planning Director Huus stated the noncompliance issues were noxious weeds, proper signage, and the absence of a road easement to the proposed ponds. Since the meeting of the Planning & Zoning Board the McKenzie County Weed Officer has inspected the property and stated there are no noxious weeds at the sites. Huus also reported that proper signs had been placed at the site. Veeder stated the issue outstanding is the road easement and asked Mr. Dixon to discuss that issue. Dixon stated the road was a public road that had been maintained by the County and used for more than 20 years as a public road. Dixon stated the property owner has refused to negotiate on an easement. SA Skarda stated ownership issues over this road have not been settled at this time. SA Skarda stated he would work with Planning & Zoning Attorney Johnson on the matter. Dixon stated the existing road is not on a section line. Moved by Lawlar, seconded by Veeder, to move Planning & Zoning Consent Agenda Item 2 - Dixon Properties LLC #13-20CUP back to Planning & Zoning for more discussion on the road easement issue. All voting aye, motion carried.

Keith Winter updated the Board on the Roadless lawsuit, which recently received a ruling in favor of the County on all seven roads. Winter also updated the Board on other outstanding lawsuits and the Board thanked Winter for his work on them for the last many years. Moved by Veeder, seconded by Skarda, to appoint Keith Winter as a representative for McKenzie County on the Roadless, Quiet Title, and 6¼% Royalty cases moving forward. All voting aye, motion carried.

Emergency Manager Jappe updated the Board on the Multi Hazard Mitigation Plan, which is currently being reviewed. Jappe stated she is taking two more weeks for

comments and working to get all of the comments to the consultant by the end of November.

Moved by Skarda, seconded by Nordby, to approve the hiring of a relative of a correctional officer in the MCCF so long as the relatives do not supervise one another. Jail Administrator Olson stated the potential employee has several years of experience and is already certified. Olson stated he has the means to keep them working in separate shifts and that they will not supervise one another. All voting aye, motion carried.

Nate Bouray, Attorney for Waste Management of North Dakota, discussed with the Board a road agreement into their project three miles north of Johnsons Corner. Bouray stated his client is trying to improve the road to handle the traffic and would like it to be paved. The issue outstanding is whether or not to pave that section of Road and Bouray stated he has been working with PWD Kanwar and SA Skarda on the matter. Bouray stated there is a meeting with Blue Buttes Township in the next couple of weeks to further discuss the project. SA Skarda stated he and Chairman McCabe attended a previous township meeting on the matter. McCabe stated it is a township decision and the Board will listen to the recommendation from the township on the road.

JDA President Brown approached the Board regarding the Wolf Run Village Mortgage Item from the previous meeting. Brown stated there are two options that were discussed as possible actions. One option is to buy down the outstanding mortgage by \$1.4M which would result in better cash flow for the property but would likely not increase the likelihood of a sale. The second option was to buy down the outstanding HIP and LEPP which would make the property more attractive to a buyer. The recommendation from the JDA is to pay off the HIF and LEPP with understanding that any profits from the sale of the property would return to the County. Brown stated the JDA recommended reallocating \$2M from the Wolf Pup II project to this project and work to sell the property. Veeder stated they have had discussion with the State about forgiveness of the HIP and LEPP but that no relief will be coming for any of these types of projects around the State. Moved by Veeder, seconded by Nordby, to reallocate \$2M of the funds from the Wolf Pup II project to the Wolf Run Village Mortgage to buy down the HIF and LEPP, plus the balance of closing costs, to make the property for sellable, with any profits from the sale being returned to the County. Wolf Run will be responsible for the sale of the property, not the County. All voting aye, motion carried.

Darin Langerud, ND Cloud Modification Project, presented the Final Report to the Board. Langerud stated the project ran from June through August this year with no extensions. The total project was under budget this year and the funds will be carried over to the budget for 2021.

MMHSZ Director Sorenson discussed the updated Mountrail McKenzie Human Service Zone Plan with the Board. Moved by Lawlar, seconded by Skarda, to approve the Updated Zone Plan as presented. All voting aye, motion carried.

Sheriff Johansen requested a budget amendment of \$22,488.37 to cover the cost of cameras and lighting in the new section of the impound lot. Nordby asked if there are funds in the 2021 budget for this project and Johansen stated not that he was aware of at this time. Veeder asked if this would finish the project and Johansen stated it would complete the project. Nordby asked if there were any County funds that could be allocated and Johnsrud reported the Board could use CARES funding received for this project. Moved by Veeder, seconded by Skarda, to approve a budget amendment in the amount of \$22,488.37 to the 2020 Sheriff's Office budget using CARES funding. All voting aye, motion carried.

Moved by Lawlar, seconded by Nordby, to approve offering the HR Direction position to Candidate 2 as a D62 Step 1. All voting aye, motion carried. Board consensus was to continue Interim Director Northrup at the Interim Director wage for an additional 2 weeks after the new full-time HR Director begins work.

Northrup asked the Board for any updated to the COVID policy following the Governor's recent Executive Order. Nordby stated the staff and executives should follow the rules in the buildings in order to reduce the number of people home on COVID related leave. Northrup asked for direction on how to handle a member of the public who refuses to wear a mask and Board director was to find an alternative method to provide the service to the person in lieu of an in-person meeting. Veeder asked the staff to lead by example and have respect for others.

Johnsrud updated the Board on the Coroner Services contract and stated she recently spoke with Todd Stevenson at Fulkerson-Stevenson Funeral Home. Stevenson asked for some additional time to work with the County due to the circumstances related to the pandemic. Fulkerson-Stevenson will continue to provide coroner services in McKenzie County and intends to work on an updated contract.

Moved by Nordby, seconded by Veeder, to set the 2021 salaries as presented, a one-step increase for employees following the County's pay scale. All voting aye, motion carried.

Chairman McCabe asked for a motion to close the meeting and enter into Executive Session for attorney consultation on the Auburn Ridge and Bison Run Administrative Appeals pursuant to NDCC § 44-04-19.1(2). Moved by Lawlar, seconded by Nordby, to enter into Executive Session for attorney consultation. Roll call vote: Skarda, aye; Nordby, aye; McCabe, aye; Veeder; aye; Lawlar, aye. Motion carried.

Executive Session began at 3:11 p.m. and was attended by Commissioners Lawlar, McCabe, Nordby, Skarda, and Veeder; State's Attorney Skarda, Auditor/Treasurer Johnsrud; Recorder/Tax Director Paulson, and Outside Counsel Mitch Armstrong.

Executive Session was adjourned at 3:17 p.m. The public was invited to return to the meeting room and the meeting returned to open session.

Moved by Veeder, seconded by Skarda, to follow the advice of counsel on the Auburn Ridge and Bison Run Administrative Appeals. All voting aye, motion carried.

The meeting recessed at 3:19 p.m. until November 23, 2020, at 12:00 p.m.

### Special Meeting November 23, 2020

The Board of Commissioners of McKenzie County, North Dakota met at the Commissioners Room at the McKenzie County Courthouse in Watford City, North Dakota on November 23, 2020, for a special meeting. Present: Commissioners Doug Nordby, Gene Veeder (by phone), Howdy Lawlar, Tom McCabe, and Kathy Skarda (by phone). Also present Auditor/Treasurer Johnsrud and State's Attorney Skarda. Chairman McCabe called the meeting to order at 12:00 p.m.

The topic of the meeting was the hiring of the HR Director. Interim HR Director Northrup presented a counteroffer from the HR Director candidate #2 to either move up one step on the pay scale or receive additional hours of vacation. Nordby stated he asked each candidate if they were okay with the salary scale presented and each candidate stated that he/she was and suggested to stay with the original offer to the candidate. Skarda stated she had no objections to moving either of the top two candidates to Step 2 due to their experiences. An increase from Step 1 to Step 2 would result in an additional \$1,705.26 annually in the salary. Planning & Zoning Director Huus discussed the fire inspector and fire plan reviews with the Board. Huus stated he hasn't much interest from local fire fighters to perform the fire inspections and has been relying on Dave Uhlich, WC Fire Chief, to perform the inspections on a volunteer basis. Huus proposed to employ a seasonal/temporary employee for six months to perform this work as needed. Huus stated they are requesting the six months as an employee has expected interest in performing those inspections and this timeframe would afford the opportunity for the employee to be trained. Huus also stated that for fire plan reviews he reached out to many companies to perform the work and heard back from Allied, which would be a similar contract that is used for planning services from SRF. Moved by Skarda, seconded by Wold, to authorize the hiring of a temporary contracted fire inspector for a six month timeframe. All voting aye, motion carried. Moved by Hystad, seconded by Skarda, to approve the contract with Allied for fire protection plans as presented. All voting aye, motion carried.

Wayne Skarda, Blue Buttes Township, discussed with the Board the Waste Management Road Use Agreement. W. Skarda stated that currently the township splits ownership with the County on 30<sup>th</sup> Street. W. Skarda stated the township is offering to give over all ownership of the road to the County and then the County can enter into an agreement as it deems in the best interest of the County. Nate Bouray, Waste Management's attorney, stated it was his understanding in the agreement that the County would maintain the road for the life of the road and Waste Management would build the road with the agreed upon surfacing.. K. Skarda asked for clarification on the NDIC docket for this project. Skarda also stated that Waste Management ND's partner company, Advantek Waste Management Services LLC, is not authorized to do business in ND and was not listed on the Secretary of State's website. Brown asked about estimated truck traffic on the road and the costs of maintenance for gravel versus pavement for the life of the road before making a decision. Brown also asked for clarification on the agreement with Waste Management which he understood to be to cover the costs to pave 30<sup>th</sup> Street and one-third of the costs for 108<sup>th</sup> Ave if that was also paved. The township stated they wanted the County to decide on the ownership of the road first before other decisions were made. Lawlar asked for documentation between Blue Buttes township, McKenzie County, and the Republic landfill regarding the 108<sup>th</sup> Ave NW Road Agreement. Moved by Wold, seconded by Skarda, to table the road use agreement at this time. All voting aye, motion carried.

The Board presented Keith Winter, an Exemplary Partner Award for all of his work on McKenzie County issues.

Moved by Skarda, seconded by Hystad, to approve the Joint Powers Agreement for the Transportation Alternatives Grant with the City of Watford City for a multipurpose path from the visitors center to the heritage park museum. PWD Kanwar requested the County to perform requested work to shape a parking lot within the DOT right of way near the visitor center. Moved by Hystad,

seconded by Brown, to approve the County employees to shape the requested parking lot near the visitor center upon DOT approval. All voting aye, motion carried.

Discussion was held on the Private Driveway Agreement/Road Maintenance Agreement. Skarda expressed concern over bus routes and senior citizens. Hystad stated he understood that bus routes would be plowed without a waiver or agreement. Kanwar stated the bus routes are taken care of on the county roads, but private driveways/subdivisions are not plowed without agreements in place at this time, but would do the work if directed by the Board to do so. Road superintendent Glover stated he has a map of the bus routes and will take care of those. SA Skarda stated the best way for the County to remove liability is for the landowners to sign the agreement/waiver. Moved by Hystad, seconded by Skarda, to first remove snow on all main roads and bus routes and then to move to personal driveways, regardless of whether or not a road maintenance agreement has been signed. All voting aye, motion carried.

Wold asked about a telephone pole in the middle of County Route 55 and when that pole would be moved. Glover stated that it is up to the contractor, Central Specialties, at this point. Kanwar stated they are working with McKenzie Electric to have the pole moved.

Discussion was held by the Board on overtime expenses by County departments. Skarda expressed concern over increasing amounts of overtime, sometimes over the budgeted amount. Skarda requested Human Resources to work with department heads on ways to reduce overtime by cross-training, reviews of employee responsibilities and focus, the use of tracking and scheduling software, and to understand the demographics of those accruing overtime. Board consensus was to move this topic to the handbook committee for further discussion and to request department heads to watch overtime expenses.

The meeting recessed at 4:01 p.m. until January 5, 2021, at 12:00 p.m.

Erica Johnsrud, Auditor/Treasurer

Howdy Lawlar, Chairman
